Personal Projects

Candy Project :	This is very basic, and good looking static website project. Bootstrap was used when this website is created just to practice, and apply my knowledge into the real project.	**Github :** https://github.com/enessolhan/candy.github.io **Live :** https://enessolhan.github.io/candy.github.io
YelpCamp :	YelpCamp is very extensive, and complex app which I worked on. Instead of just applying basic blog app features, I added authentication, cookies and sessions, Authorization, SQL Injection, and XSS for security, Image upload and storage, Maps and Geocoding.	**Github :** https://github.com/enessolhan/Dynamic-Camping-Website
Score Keeper :	This is a score keeper app. You can keep your score when you play tennis, or other activities.	**Github :** https://github.com/enessolhan/scorekeeper **Live :** https://enessolhan.github.io/scorekeeper/
Color Game :	This is just small app which was created html, css and Javascript.	**Github :** https://github.com/enessolhan/colorgame **Live :** https://enessolhan.github.io/colorgame/
